

SolarTech Power Solutions

1 2 kw solar inverter factory in Portugal

Overview

Where is Iberdrola's 1.2 GW Fernando Pessoa solar project located?

The Spanish company Iberdrola has secured environmental approvals to build its 1.2 GW Fernando Pessoa solar project, which will be located in Santiago do Cacém, near Sines (south-western Portugal). The project, developed in partnership with the renewable company Prosolia Energy, is expected to be commissioned by 2025.

Where is the largest solar plant in Europe?

Spain's largest energy supplier, Iberdrola, and Spanish PV project developer Prosolia have secured an environmental permit from the Portuguese authorities to build a 1.2 GW solar plant in the municipality of Santiago de Cacém, about 200 kilometers south of Lisbon. Iberdrola said that the project will be the largest PV plant in Europe.

Why are PV installations growing in Portugal?

PV installations in Portugal, namely grid connected systems had a continuous increase since 2007 firstly driven by FIT and by Independent Power Producers dynamics. Solar photovoltaic installed capacity has grown from very small numbers to 460 MW, registering the largest relative growth rate, comparing to other renewable energy sources.

Will Spain build a solar plant in Santiago de Cacém?

From pv magazine Spain Spain's largest energy supplier, Iberdrola, and Spanish PV project developer Prosolia have secured an environmental permit from the Portuguese authorities to build a 1.2 GW solar plant in the municipality of Santiago de Cacém, about 200 kilometers south of Lisbon.

Will Spain invest \$996 million in solar projects in 2025?

Iberdrola, Spain's largest energy company, and Prosolia, a Spanish PV project developer, plan to invest \$996 million in the development of four solar parks

in Spain with a total capacity of 360 MW and a 1,140 MW solar plant in Portugal by 2025. At Portugal, the solar project will be in Santiago do Cacém, approximately 200 km south of Lisbon.

What is PV industry development in Portugal?

An important PV Industry development in Portugal is related with Concentrated Photovoltaics, CPV, with a totally Portuguese Engineering developed product on HCPV at Magpower with a production rate of 54 MWp and with an internationalization process with several projects installed abroad.
