

## SolarTech Power Solutions

# 300W split solar light

## Overview

---

Are solar LED street lights waterproof?

The IP65 waterproof class is among the aspects that allow it to remain functional even during the wet seasons without any of the components being affected by wetness. Solar LED Street Light is a fully solar powered lighting solution used in urban roads, building surroundings, parks, squares, airports and gas stations.

What is solar LED street light?

Solar LED Street Light is a fully solar powered lighting solution used in urban roads, building surroundings, parks, squares, airports and gas stations. LED luminaire on the system is designed with high light output. The aluminum body helps to effectively cool the lighting fixture.

How does a solar LED light work?

This lamp is a simple plug-&-play solution which is ready for use once fitted on an outdoor light pole. The 300W solar module is provided as an external unit to be fitted on the top of the Integrated 'battery-LED' fixture which generates enough current to charge the integrated 36,000 mAh Lithium battery which then powers the LED module.

How many Watts Does a 5730 LED light produce?

Equipped with 5730 LED Chips equivalent of 300 watts, this light generates enough light to cover an area of about 200 sq. meters from a height of 3-6 meters. Experience convenience like never before with this ultimate solar-powered outdoor lighting solution.

What are the features of a solar light system?

The entire system is suitable for working in outdoor conditions, resistant to water, dust, and moisture. Lighting fixture, battery, solar panel, charge control unit and connection equipments are located on the system. Light can be

produced at any color temperature according to the lighting needs.

What is a solar street lamp?

The solar street lamp uses solar energy as the power source of the street lamp, which saves the country's energy consumption and reduces the possibility of energy pollution. In the process of generation and utilization, this kind of energy is free of harmful substances, very clean, and very beneficial to the natural environment.
