

## SolarTech Power Solutions

# 30kw photovoltaic inverter off-grid

## Overview

---

What is the efficiency of off grid inverter?

The efficiency of off grid inverter at least 93%. 30kW 3 phase off grid inverter with MPPT function, high efficient IPM intelligent module, strong load capacity, two kinds of start mode: Step-down voltage start and variable frequency start. Low frequency pure sine wave inverter without battery for solar power system, converts 240V DC to 480V AC.

Why is a 30kW off grid inverter black?

This results in better cooling and a longer lifespan for the 30kW off grid inverter. The black finish can improve the overall appearance of the inverter and make it blend more seamlessly with other components. A powerful cooling system enhances the safety, durability.

What is low frequency DC to AC off grid without battery power inverter?

Low frequency DC to AC off grid without battery power inverter for solar power system, three phase 4 wire connection, pure sine wave output waveform, input & output fully isolation.

What is a low price solar power inverter?

Low price solar power inverter is 30000 watt high power, digital LCD display data info, powerful protection function: battery charging function and short-circuit protection. The efficiency of off grid inverter at least 93%.

What is a 30kW inverter?

This is a 30kW Inverter, an efficient and highly reliable energy storage solution developed for small and medium-sized microgrids, supporting 30 kW PCS solar integration with competitive 30 kW PCS price.

What are the features of T Series solar inverter?

T series 30kw~200kw three phase solar inverter feature: 1. With AC reactor (Protect against city power current shock) 2. Double protection. (Two fuses, including the city power security and battery power security) 3. Thyristor charging.
