6 5 degrees outdoor power supply

Overview

Why should you choose an outdoor surge protector?

1. IPX4 Waterproof Design: outdoor surge protector will effectively prevent the occurrence of short-circuit or electric shock and other safety accidents caused by water splash or light rain. 2. Anti-electric Shock: Power strip will only be energized when a standard electrical plug is inserted.

How many outlets does an outdoor power strip have?

Outdoor Power Strip with 3 Outlets: Compatible with 2-pin and 3-pin U.S. standard plugs, 1.6-inch widely spaced between each outlet, Extra long 6.56 feet 18AWG (3x0.824mm²) flat plug heavy duty extension cord with ETL listed.

Is outdoor power strip waterproof?

Outdoor Power Strip Weatherproof: Its waterproof can resist rain, water splash and even water flow. Water flowing into the socket will not damage the internal circuit because of its special internal structure, and the water will be discharged by the drain hole on the back of the power strip.
