

## SolarTech Power Solutions

# Ae Photovoltaic panel current

## Overview

---

Why should you choose AE solar photovoltaic modules?

Higher yield due to plus-sorting of 0 to +5 Wp guarantees the highest system efficiency and stability. AE Solar photovoltaic modules align with international standards and are tested and certified under extreme stress and environmental influences.

Who is AE solar?

AE Solar, a renowned TIER 1 solar panel manufacturer from Germany, has cemented its position as a dynamic and progressive enterprise since its inception in 2003. Through hard work and dedication, the company has expanded its portfolio, strengthened its presence in international markets, and now operates in over 95 countries.

Is AE solar a reliable solar company?

AE Solar has earned its place on the latest Bloomberg Tier 1 list, a testament to the company's financial stability and strong market presence. This achievement demonstrates AE Solar's reliability as a partner for large-scale solar projects and reinforces its position as a trusted manufacturer in the global solar market.

What are Aurora PV modules?

The Aurora PV module series offers a range of power outputs, from 360W to 660W, and efficiency up to 21.35%. Furthermore, these modules demonstrate robust resistance to potential-induced degradation, conforming to various industry-standard tests such as those set by the ISO, TUV, IEC and CE certification.

What makes AE solar different?

A standout feature of AE Solar is the reduced rate of degradation in their panels. The Aurora series, in particular, utilizes Gallium-doped silicon, known

for its extended lifespan and stability when exposed to sunlight. This type of silicon wafer minimizes photon degradation more effectively than the traditional Boron-doped solar cells.

Does AE solar have a warranty?

However, AE Solar's AES-AE415MD-108BD/30 model surpasses this with a performance warranty of 84.6% output retention after 25 years and 82.2% after 30 years, showcasing its exceptional long-term reliability. AE Solar offers a diverse portfolio of solar panel series, including Aurora, Comet, Thunder, Eclipse, among others.
