What is a 15kW sine pure wave power inverter?

15kW sine pure wave power inverter is a 3 phase off grid inverter with no battery for the solar system, converts the DC power to AC power, it is useful for areas without electricity, vehicles, ships, solar energy and other renewable energy systems, etc. Two kinds of start modes: Step-down voltage start and variable frequency start.

What is a hybrid grid inverter?

AC current from utility grid Hybrid grid inverter is a key part of the energy storage solar system, which converts the direct current of solar modules into alternating current. The hybrid network energy storage inverter has its own charger, which can be directly connected to lead-acid batteries and lithium iron phosphate batteries.

What are the different types of inverters?

Inverter specifications include single-phase 220-240v, 50hz; three-phase 380-415V 50hz; single-phase 120v / 240v 60hz; and three-phase 480v. One stop solution for solar power system. Greensun solar can provide customized solar system solutions, including grid-tie, off-grid and hybrid storage solar energy systems.
