

## **SolarTech Power Solutions**

# **Auckland New Zealand RV Energy Storage Battery**

## Overview

---

What battery options are available on my Auckland motorhome?

Auckland Battery has a variety of battery options to choose from: Flooded, Gel and Drycell battery options. These different options are often selected from the location of the batteries on the Motorhome. Let us assist you in making your selection and there will be no more living it rough.

Are caravan batteries good for off-grid adventures?

Caravans have unique power requirements compared to standard vehicles, but there's a variety of dependable power solutions available for off-grid adventures. While typical lead-acid batteries in vehicles provide quick bursts of energy for starting, caravan and camping batteries require a more consistent and less intense power supply.

Why do you need a deep cycle battery for a caravan?

While typical lead-acid batteries in vehicles provide quick bursts of energy for starting, caravan and camping batteries require a more consistent and less intense power supply. This is essential for operating interior appliances, lighting, and other electrical devices within your caravan or campsite. The solution lies in deep cycle batteries.

Can a Li-ion battery be used for a motorhome?

Furthermore, this range of Motorhome and RV friendly Li-Ion batteries also have an integrated battery contactor to provide a simple 'drop in' replacement for conventional lead acid (flooded, AGM or GEL) service batteries and can be charged by your existing standard battery chargers and MPPT solar regulators.

How long does a caravan battery last?

Typically, a well-maintained caravan battery can last anywhere from one to five years. How do I charge a caravan battery?

Caravan batteries can be recharged through various methods, including using a mains charger, installing a solar panel on the roof or the ground, or charging from your vehicle's alternator while on the road.

What are juice pro RV lithium ion batteries?

Drop us a line. Juice Pro Series RV Lithium Ion Battery Juice PRO RV Lithium batteries are the latest in the range of high performance, purpose designed Motorhome and RV Lithium Ion batteries. Using the latest in Lithium Iron phosphate cell technology this latest generation of batteries offer significant improvements in performance and longevity.
