Austria Outdoor Power Supply Design

Overview

Who makes custom power supplies?

With individual power supplies from LECO. The leading power supply designer and manufacturer in Austria. LECO – your solution provider along the entire value chain. As an experienced manufacturer of custom power supplies, we offer you reliable series production.

How many external power supplies are there in the EU?

In 2020, 1.7 billion external power supplies (EPS) were in use in the EU27, of which 75% for residential use, on average 6.5 units per EU household. They converted 48 TWh/a of electricity from the 220V mains to the input needed by the powered products.

How much money will EU27 users save on external power supplies?

In 2020, due to Ecodesign measures, EU27 users saved € 0.9 billion on external power supplies. This is projected to increase to € 1.3 billion in 2030, a 16% saving. In 2030, the annual household expenses for EPS are projected to decrease from € 33 (without measures) to € 28.
