Bangkok new energy storage vehicle

215kWh

8,000+ Cycles Lifetime

IP54 Protection Degree

Overview

Bangkok, Thailand, July 4, 2024 - Delta Electronics (Thailand) PCL. launched the Delta LFP Battery Container energy storage solution in the Thailand market to support EV charging and renewable energy infrastructure at the ASEAN Sustainable Energy Week 2024 held in Queen Sirikit National Convention Center (QSNCC), Bangkok. Will Thailand's first EV battery production plant boost EV industry?

Under joint efforts, venture expected to give impetus to industry in SE Asia Thailand's first domestic electric vehicle battery pack production plant went into operation on Thursday. The plant, run jointly by Chinese battery cell manufacturer Gotion High-tech and Thai company Nuovo Plus, is expected to give Southeast Asia's EV industry a boost.

Are EVs a new start in Thailand?

"This is a new start in Thailand with great vitality, as a revolution is now coming strongly with the energy storage of solar and wind power as a key role," he said, adding that the EV market in Thailand has great potential, as EVs currently constitute only a tiny portion of the country's total vehicle number.

Is Thailand developing a new electric vehicle?

Mr. Suroj Sangsnit, Vice President for Electric Vehicle Association of Thailand (EVAT) and Executive Vice President of SAIC Motor-CP, said that NEVs in Thailand are witnessing rapid development, while the pace of its charging infrastructure is slower than that of China. The charging points in Thailand is limited in number and unevenly distributed.

Why did Informa Markets rebrand 'electric vehicle Asia' to 'mobilitytech Asia - Bangkok'?

Informa Markets rebrands 'Electric Vehicle Asia' to 'MobilityTech Asia - Bangkok', positioning Thailand as a regional hub for sustainable mobility innovation, expanding business opportunities, attracting global investment,

and accelerating the energy transition in the automotive industry.

Where is the battery energy storage system (BESS) demonstration being conducted?

The project is being conducted within the BESS area newly established on the premises of Siam Toyota Manufacturing (STM) in Thailand. Executives from TMC, TMA, and SCG, in collaboration with partner companies, celebrate the launch of the Battery Energy Storage System (BESS) demonstration in Thailand.

How many EVs are registered in Thailand?

Official numbers from Thailand showed that the country had more than 140,000 newly registered 4-wheel EVs during the nine months to September, amounting to more than a quarter of the total 520,000 registered vehicles during the period.
