Battery cabinet is not available

Overview

What is a battery cabinet?

The battery cabinet contains one (1) 40 A battery disconnect circuit breaker and provides alarm leads attached to the common contacts of the breaker. Battery cabinets may be daisy chained as shown in Figure 7 to increase the reserve time.

How do I remove the battery tray from the battery cabinet?

Remove the front cover from the battery cabinet by loosening the top two captive fasteners and lifting the cover up and out of the battery cabinet. Slide the battery tray out of the battery cabinet until it stops. Place the batteries inside the battery tray oriented as shown in Figure 8. Place the provided spacers between the batteries.

How do you connect a battery cabinet to a power system?

Connect the power system's battery cable terminated in an Anderson connector to the first battery cabinet's battery cable terminated in a mating Anderson connector. Connect the second battery cabinet's battery cable terminated in an Anderson connector to the fixed mating Anderson connector located on the first battery cabinet.

How do I mount a battery cabinet?

The battery cabinet is designed to mount in a standard 19" or 23" wide relay rack or on a wall. Refer to Figure 3 and install the 19" or 23" relay rack mounting angles to the battery cabinet. Mounting hardware is provided with the battery cabinet.

How do you care for a battery?

Follow the recommended PPE requirements per the SDS for the battery to be used. Batteries are an energy source that can produce high amounts of electrical current. Remove watches, rings, and other metal objects. Eye

protection should be worn to prevent injury from accidental electrical arcs.
Use certified and well maintained insulated tools.
