Belize Photovoltaic Solar Monitoring Power Supply System

Overview

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Does Belize use solar power?

Belize uses solar power on a smaller scale, with the Government having installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid. The Government of Belize, along with Belize Electricity Limited (BEL), intends to launch a pilot project introducing electric vehicles.

Who is Sun's Electric?

Sun's Electric, with over 18 years experience offers design, installation, monitoring, maintenance, and repair of grid tied and off grid solar PV systems by a licensed electrician. In Belize from a concept to a reality, our solar electrical systems are designed and backed by 18 years of industry experience.
