# Berlin outdoor communication battery cabinet processing plant system

## Overview

---

Who makes Sichert cabinets?

Sichert is a market leader in the manufacturing of passive outdoor and active cabinets, based in Berlin Germany. Founded in 1923, the family-owned company has always stood and prided itself for its engineering and manufacturing capabilities along with quality and trust.

What are the features and applications of battery energy storage systems?

Here are some key features and applications of battery energy storage systems:

- Energy storage: They store excess energy generated at times of low demand or high generation and release this energy when needed.
- Grid stability: BESS can help to keep the electricity grid stable by regulating frequency and voltage.

Why did Sichert acquire the Siemens injection molding facility in Berlin?

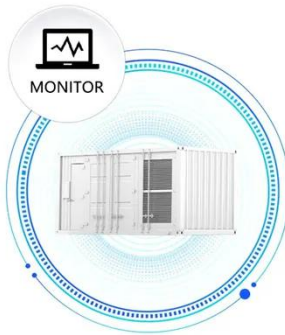

Acquisition of the Siemens injection molding facility in Berlin to service the growing demand of the telecom networks in the reunited federal states of Germany. With the founding of the Sichert Sp.zo.o. in Poland Sichert lays the foundation for the internationalization with its first international production site.

Where is Sichert made?

As OEM manufacturer Sichert starts its own tool shop and injection molding production for Siemens in Berlin. First products include the first components for personal computers. The copper connection cabinet (CCC) 82 and 83 were developed in cooperation with the federal postal service of Germany.
