Bosnia and Herzegovina lithium iron phosphate energy storage lithium battery

Overview

Is there a lithium deposit in Bosnia & Herzegovina?

Bosnia and Herzegovina. Stock image. Swiss miner ARCORE said on Friday its exploration in eastern Bosnia had found mineral deposit rich in lithium carbonate, magnesium and other minerals that are in demand in Europe.

Where in Bosnia is a gold deposit located?

The deposit, located about 140 km north of the Bosnian capital Sarajevo, in the country's autonomous Serb Republic, was scientifically estimated and confirmed by expert reports in 2022, and also by the regional mining and energy ministry this year, the company said.

Why are people in Lopare deposit suspicious of the Jadar Lithium Project?

People living in the region of Lopare deposit are suspicious of the project after protests just across the border in Serbia succeeded in 2022 on environmental grounds to revoke the licence granted to Rio Tinto for the Jadar lithium project. (By Daria Sito-Sucic; Editing by David Evans).

Should Bosnia's Serb project be a missed opportunity?

Bosnia's fiery Serb leader Milorad Dodik has called the project -- which would be located in the country's Serb statelet -- "an opportunity for development that should not be missed".
