Our in-house installers are licensed and certified, meaning you can rest assured that your solar meets the most rigorous standards. Download the Boston Solar complete guide to going solar and get answers to all your questions about solar energy.

Which companies are best for solar in Boston?

Here are the top companies we recommend for solar in Boston: Originally starting by serving New England for over 6 years, Lunex Powers employees are directly responsible for the installation and procurement of over 15MW of installed solar capacity; thats nearly 1800 average-sized residential solar projects. Our goal is.

Does Boston Solar offer a production guarantee?

Boston Solar provides superior solar panels and products, exceptional customer service, and the highest quality workmanship. Now, we also offer a Production Guarantee for residential solar panel installations. Our Production Guarantee offers assured energy production over the first ten years that your system runs, or we'll pay the difference!.

What is Boston Solar's reputation?

Boston Solar has received 4.9 stars on over 500 Google reviews to date. They

are dedicated to helping customers save money, while improving the environment and supporting the local community. Every member of their team is focused on delivering the best experience for every customer.

How much does solar cost in Boston?

The average price of solar is about \$2.3 to \$3.44 per watt in Boston, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.
