# **Budapest new energy charging station**

## Overview

---

How fast can a car be charged in Hungary?

In Hungary, 28 ultra-fast charging points, each with a capacity of at least 150 kilowatts (kW), will be installed in seven locations. The units will have a maximum charging capacity of up to 300 kW and will be able to charge a vehicle up to a range of 200 kilometers in about 10-15 minutes, depending on the capacity of the car.

How much does it cost to install OMV Chargers in Hungary?

The European Union is providing €1.05 million for the sites in Hungary, with the total cost of setting up the chargers amounting to €2.1 million. The installation of all stations will be completed by the end of 2025. "With OMV's 2030 strategy, we have committed to actively contribute to the energy transformation of the region.

How many service stations does OMV Hungária have?

Budapest-based OMV Hungária Kft. operates 201 service stations and has a 15 percent market share in Hungary. OMV Hungária employs nearly 60 people directly and its network of service stations employs approximately 1,700 people. OMV generated revenues of €62 billion in 2022 and employs around 22,300 people worldwide.
