# COTEK Photovoltaic Inverter

## Overview

---

We are excited to unveil Cotek's latest SPT Series inverters—SPT-1200, SPT-2000, and SPT-3000—engineered to deliver exceptional performance, reliability, and efficiency across a wide range of applications. What is a COTEK power inverter?

A COTEK power inverter is one of the best manufactured pure sine wave DC to AC inverters on the market today. We have free shipping on many of their models.

What is a COTEK pure sine wave power inverter?

COTEK Pure Sine Wave power inverters - advanced microprocessor design, heavy duty transformer for inductive loads, full protections, meet UL.

What is a COTEK SK power inverter?

COTEK SK Series industrial grade, high surge power inverters are available in 12V/24V/48V models from 150 watts to the large and powerful 3000 watt pure sine-wave power inverter. The built-in multistage power saving control function saves your battery power for when you need it the most.

What is a COTEK S series stand-alone inverter?

COTEK S Series stand-alone inverters offer superior quality pure sine wave output, and are available in 12/24/48V models from 150 to 1500 watts. They are ideally suited for electrical systems that already have a quality battery charger.

What is a COTEK SD & SP inverter?

COTEK is proud to introduce the NEW SD and SP series- the next generation of battery-based, pure sine wave inverters that have evolved from our well-established "SK" and "S" series.

What is the difference between COTEK S and SD series Inverters?

SD series can be used for N+1 ( $N \leq 14$ ) redundancy and the ability of enlarge the capacity (Users can install maximum 15 units of inverters together in parallel in order to provide the power expansion). COTEK S Series stand-alone inverters offer superior quality pure sine wave output, and are available in 12/24/48V models from 150 to 1500 watts.
