Can the base station be removed from the container

Overview

Standard containers are comparatively small and used in ships that don't have the capacity of a hauler or freighterto increase the size of their cargo space. Since standard containers have a higher capacit.

What is a station container?

Station containers can be used to organise your assets in a station or structure. They have a capacity of 1,000,000 m³. Station containers have a volume of 2,000,000 m³ (10,000 m³ packaged), which means in their assembled state they do not fit in any freighter, and even unassembled they need a ship with a very large cargohold to move them.

Can a station container be jettisoned?

Station containers can not be jettisoned nor launched into space. Assembled, they are too large to fit inside any ship's cargohold, meaning they can only be used in stations for organizational purposes. They contain auditing functionality, which stores a log showing:.

Where should a station container be built?

I'll just wade through my mess Most Station Containers needs to be build where they are needed as they do have a high volume even when packaged; 10.000, 50.000 or 100.000m³ for Station Container, Station Vault and Station Warehouse respectively.

What if a bunkering station is closed or semi-enclosed?

Closed or semi-enclosed bunkering stations shall be subject to special consideration within the risk assessment. 8.3.1.2 Connections and piping shall be so positioned and arranged that any damage to the fuel piping does not cause damage to the ship's fuel containment system resulting in an uncontrolled gas discharge.

What happens if I fail to repackage or rename a station container?

Station containers use logging. You have to wait three weeks after the last

audit log entry to repackage or rename a station container. A failed attempt to repackage or rename an station container generates a new audit log entry, which resets the timer.

Can items inside a container be repackaged?

Items inside a container can not be repackaged, repaired, contracted, sold or delivered - they have to be moved to the item hangar for these actions. Station containers use logging. You have to wait three weeks after the last audit log entry to repackage or rename a station container.
