Will Thailand's first EV battery production plant boost EV industry?

Under joint efforts, venture expected to give impetus to industry in SE Asia  
Thailand's first domestic electric vehicle battery pack production plant went into operation on Thursday. The plant, run jointly by Chinese battery cell manufacturer Gotion High-tech and Thai company Nuovo Plus, is expected to give Southeast Asia's EV industry a boost.

Will China's Contemporary Amperex Technology Co (CATL) start a battery factory in Thailand?

Credit: Sergii Chernov. The government of Thailand has started negotiations with China's Contemporary Amperex Technology Co (CATL) aiming to incentivise battery production to the country. CATL is the the world's largest electric vehicle (EV) battery supplier by market share. The deal would see the company , open a first factory in south-east Asia.

Will Thailand build a battery cell factory in the next two years?

A person is optimistic that Thailand will establish significant battery cell factories within the next two years, contributing to the completion of the EV supply chain in the country. Currently, China dominates the global battery cell market, accounting for over 60% of the share, with CATL holding a 37% share.

Which country has the largest battery cell market in the world?

Currently, China dominates the global battery cell market, accounting for over 60% of the share, with CATL holding a 37% share. Two Chinese electric vehicle battery producers, CATL and CALB, are considering setting up production facilities in Thailand with a combined initial investment of over 30 billion baht.

Are Chinese automakers taking a lead in Thailand?

Here too, Chinese companies are taking a lead. In addition to CATL, Chinese

battery makers such as Gotion High-tech and SVOLT are setting up battery plants in Thailand. Thai authorities are also encouraging Chinese automakers to source their auto parts locally, in an attempt to create a sustainable ecosystem.

Can Chinese companies invest in Thailand's EV sector?

While its share in the global EV exports is still low, with Chinese company “horsepower,” the growth potential in Thailand’s EV sector is promising. The Chinese-Thai partnership in building out Thailand’s EV supply chains holds valuable lessons for Chinese companies aiming to invest in Southeast Asia’s clean energy sectors.
