Construction of Bogota Power Plant Energy Storage Project

100-430KWH

230|400V

Overview

Where is a lithium-ion battery project located in Colombia?

Located in the city of Barranquilla in northern Colombia, this project will consist of a 45 MWh lithium-ion battery energy storage system and is expected to reach commercial operation by June 2023. The project is granted with a 15-year revenue structure with the Colombian government and is indexed to the country's inflation or producer price index.

How did Colombia win a mining project?

The project was awarded in the public tender launched by Colombia's Ministry of Energy and Mines, via its affiliate UPME, the Mining and Energy Planning Unit.

Did Canadian Solar win the first Pure Storage tender in Colombia?

Dr. Shawn Qu, Chairman and CEO of Canadian Solar, commented, "We are very proud to have won this project in the first pure storage tender in Colombia. This is also our first energy storage project in the country and the Latin America region.

What is the Barranquilla project?

The Barranquilla project will strengthen the electricity transmission network in the Atlántico Department in northern Colombia and support the government's efforts to prevent future supply deficits.
