

SolarTech Power Solutions

Customized outdoor power supply and finished power supply

Overview

What sets our custom power supplies apart?

What truly sets our custom power supplies apart is our unwavering dedication to meeting the unique needs of each client. Our facility boasts state-of-the-art design capabilities, enabling us to craft bespoke solutions that perfectly align with specific application requirements.

How do I request a custom power supply?

You'll have access to free consultation for potential projects, ensuring peace of mind. We prioritize quick turnaround times to keep your operation powered. To start, simply fill out our custom power supply request form with a brief description of your project, the type of power supply you need, and your contact information.

How do you ensure the reliability of custom power supplies?

To ensure the reliability of custom power supplies, we focus on designing for durability, selecting high-quality components, rigorously testing prototypes, maintaining strict control over the manufacturing process, and conducting burn-in testing to identify potential failures. What types of custom power supply technologies do you offer?

.

What types of power supplies are available?

Our portfolio includes AC/AC and AC/DC power supplies, each customizable to meet the specific demands of applications like audio equipment, motor control, medical devices, security systems, and industrial automation, ensuring seamless integration and optimal performance. We offering a seamless process from start to finish.

How do I consent to receive news from custompowersupply?

By submitting your email address, you consent to receive news from CustomPowerSupply.net. ©2024 CustomPowerSupply.net | All Rights Reserved. Our custom power supply solutions stand out for their precision and flexibility, specializing in the design of sub-1000W power supplies.

Why do we offer fully customized power module design & development services?

offer fully customized power module design and development services to meet unique product requirements We understand that every manufacturer, brand owner, and engineer has unique product requirements and that different markets have varying needs. That's why we offer fully customized power module design and product development services.

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150W Peak Output Power
- 2 MPPT Trackers, 150W DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High-Power Modules

Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-Acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Customized outdoor energy storage power supply
