Double glass panel frame

Overview

What is a replacement double glazed glass panel?

Replacement Double Glazed Glass Panels are ideal for cutting costs, while also being better for the environment. This product consists of two panes of tempered glass separated by a spacer. The space between the two panes of glass is filled with air. These are most often used in residential window applications.

What are double pane glass windows?

Double pane glass windows, also known as thermal or dual pane windows, consist of two panes of glass with a layer of air in between. Properly functioning windows have a vacuum seal that offers thermal insulation, contributing to energy efficiency in your home.
