Energy storage container in Antwerp Belgium

Overview

Where is TotalEnergies launching the largest battery energy storage project in Europe?

Saft – TotalEnergies launches in Belgium its largest battery energy storage project in Europe. TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households.

Is TotalEnergies developing a second battery storage project in Belgium?

Download the Press Release (PDF) Antwerp, April 3, 2024 – On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the Company announced the development in Belgium of a second similar project. The new project will be developed on the site of TotalEnergies' depot in Feluy.

What is the largest energy storage project in Europe?

A First Flagship Energy Storage Project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

What is the largest European battery-based energy storage project?

In May 2023, we launched our largest European battery-based energy storage project at the Antwerp platform in Belgium. With its 40 containers, the site will develop a capacity of 75 MWh, which is equivalent to the daily consumption of almost 10,000 homes.

How many MW / 150 MWh will TotalEnergies store in Belgium?

These two projects, which represent a global investment of nearly €70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh. In July 2024, we signed the final investment decision for a 100 MW/200 MWh

battery electricity storage project in Dahlem.

How much power does totalenergies have in Belgium?

It will have a power rating of 25 MW and capacity of 75 MWh, thanks to the forty “Intensium Max High Energy” lithium-ion containers supplied by Saft. These two projects, which represent a global investment of nearly €70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh.
