

## SolarTech Power Solutions

# Ethiopia Solar Panel Power System

## Overview

---

What are the benefits of solar power in Ethiopia?

By harnessing the power of the sun, communities can break free from traditional energy constraints, reducing reliance on non-renewable sources and lowering long-term energy costs. Ethiopia is a country blessed with renewable energy. These are hydraulic, wind geothermal, solar and biomass.

Is Ethiopia a good place to invest in solar energy?

Ethiopia has a rapidly growing economy and offers tremendous opportunities to solar PV suppliers worldwide, having among the strongest solar resources in the world. In particular, the region offers excellent potential for off-grid energy systems with solar PV systems being promoted to replace fuel-based lighting and off-grid electrical needs.

Is the public interested in installing solar home systems in Ethiopia?

The government of Ethiopia in collaboration with development partners and private sector is promoting the distribution and installation of solar home systems to the rural communities. However, there is no clear data that shows the public is interested to install solar home systems.

Who is power Ethiopia?

Established in 2021 by Ethiopian American diasporas, the company serves as a sister company to Skylink Trading PLC. With a strong commitment to sustainable development, Power Ethiopia supplies high-quality electromechanical and solar products while providing comprehensive training programs to aspiring professionals throughout the country.

How can Ethiopia achieve universal electricity access by 2025?

In order to increase the electricity access, the Ethiopian government has launched National Electrification Program laying out the country's ambition towards universal access by 2025 through a combination of 65% grid-

connected and 35% off-grid energy systems such as the solar home systems (SHS).

How much energy is available in Ethiopia?

The current energy access in Ethiopia stands at 44%, where 33% is provided through grid connections and 11% through off grid solutions.
