Factory price bus tie breaker in Sydney

Overview

Are bus ties automatic?

Bus ties are fully automatic. Once set, they ensure that critical loads are supplied in case of supply failure or during maintenance procedures. The SBT configuration is ideal for implementing dual cord AC distribution systems or independent load applications where loads must be supplied independently while the supplies are operating normally.

What are static bus ties?

Static Bus Tie - THYCON - Uninterruptible Power Supplies, Airfield Lighting Regulators, Frequency Converters, Active Power Factor Regulators and more. Static Bus Ties (SBT) are essential for achieving highly reliable independent, stand-by, parallel or redundant supply to critical systems. Bus ties are fully automatic.

What does a busbar do?

BusBars - Power Distribution BusBars & Power Posts BusBars - BusBars distribute positive wires or collect negative returns. BusBars range in capacity from 100A to 600A.
