Will a new solar glass plant in North Georgia create a strong supply chain?

“SOLARCYCLE’s announcement of hundreds of jobs coming to a new, cutting-edge solar glass plant in North Georgia further cements the Peach State as a national leader in domestic solar manufacturing, and they will play a pivotal role in creating a robust supply chain for the United States emerging solar footprint.

Can solar glass make c-Si photovoltaics?

SOLARCYCLE’s new facility in Georgia will position the company as one of the first manufacturers of specialized glass for crystalline-silicon (c-Si) photovoltaics in the U.S., with the capacity to make five to six gigawatts worth of solar glass every year.

Is solarcycle a transformational investment for Polk County?

“SOLARCYCLE’s first-of-its-kind facility is a transformational investment for the Polk County community and will help drive its economy for years to come,” said Governor Brian Kemp. “In Georgia, our strong energy mix is one of the key reasons our state has attracted generational investments in recent years.
