Greece Small Communication Base Station Inverter

Overview

Consider a BTS with a HPS, as illustrated in Fig. 1. This system includes renewable generators, local power generators, energy storage devices, and power.

An intelligent control system is essential for stable and reliable operation of the BTS HPS. This system is composed of sensors, actuators, and a control unit as.

As previously explained, the conventional BTS HPS has the capability to connect and disconnect from the electrical grid, according to measuring shortage.

where V_c is the initial capital cost of the system [7], which depends on the nominal power of wind turbines (P_{wn}), the nominal power of the PV generators (P_{pn}), the.
