

SolarTech Power Solutions

Helsinki container energy storage cabinet manufacturer

Overview

Where are our energy storage systems made?

Designed and manufactured in Finland – powered by 100% European technology. Usability is our pride. We guarantee an annual availability rate of at least 96%. Our energy storage systems are tested to withstand even the harshest arctic conditions.

Why do we design and manufacture batteries in Finland?

Our goal is to accelerate the shift by decarbonizing electricity, enabling electric transportation, and reducing heating emissions for a cleaner future. We design and manufacture our batteries in Finland, a country renowned for its engineering excellence and commitment to sustainability.

Who is heliostorage?

Heliostorage's journey began with a group of creative engineers in a garage, determined to make heating better and more efficient. We were driven by the age old issue caused by seasonality; In winter, when it's cold and sunny days are rare, buildings need heating. In summer, when there's plenty of sun, buildings need cooling.

What is an energy storage system?

An energy storage system enables property-specific optimization of electricity consumption and energy costs. It can also be used to participate in grid frequency reserve markets. Enico | Jupiter scales to large-scale renewable energy applications and hybrid power plants.

Why should you choose enico energy storage?

Enico provides reliable and intelligent energy storage solutions and services to support your business—designed to last well into the future. Sustainably, for the benefit of the environment. Harnessing Renewable Energy – Why Energy Storage Is the Key?
