High quality power switchgear in Costa-Rica

Overview

Why is Costa Rica a good country for electronics manufacturing?

Since Costa Rica hosts the region's only Intel semiconductor assembly and test plant, electronics manufacturers in Costa Rica may enjoy a significant economic advantage. Finally, Costa Rica is geographically located between North and South America, and has ports on the Atlantic and Pacific oceans.

Why should you choose Smiths Interconnect Costa Rica?

This ensures availability of goods and services with uninterrupted supply chains. The Smiths Interconnect Costa Rica manufacturing facility is located near the capital city and major population center of San Jose. This enables Smiths to draw upon a large skilled workforce that is trained in nearby schools and universities.

Which military programs use Smiths' Costa Rica components?

A number of high-profile programs use Smiths' Costa Rica components. For example, the Frontier Mars Rover uses the Thermopad, the Indian Chandrayaan-3s Moon Lander has both the Thermopad and LabFlex T cables and the F-35 Lightning military aircraft features radar system attenuators.

What is Costa Rica famous for?

Costa Rica is the fifth largest Central American country with a population of almost five million. Traditionally, the country's major exports have been agriculture goods, such as coffee, sugar cane, pineapples and bananas; however, since the 1990s, manufacturing has made major in-roads into their economy.
