Home inverter system for sale in Auckland

Overview

Which solar inverter should I Choose in NZ?

With a wide range of solar inverter options available in NZ, Lightforce Solar makes the obvious choice by using only tested and trusted brands. When designing your free solar quote, we carefully select the best inverter to suit your needs. If you have unique requirements, get in touch—we're here to find the obvious solution for you!.

Does AA solar offer a solar inverter?

AA Solar has an extensive range of solar inverters, and solar batteries & panels. Suitable for residential, commercial & leisure applications. Learn more [here!](#).

What is a solar inverter?

A solar inverter converts the energy output from solar panels into a usable electricity form, to be used in your home or business. Our range includes grid-tied, hybrid and off-grid inverters. A Grid-tied Inverter is designed to connect to supplement your home or business' mains power.

Which solar inverter do you use for a home solar system?

For home solar systems we use the Sungrow Hybrid inverter range either with Sungrow HV batteries or as a "battery ready" System. We have a wide range of Sungrow Hybrid inverters available such as 5kW 1 Phase, 5kW 3 Phase, 10kW 1 Phase & 10 kW 3 Phase. We stock a range of different inverters designed to suit your power storage requirements.

What types of inverters are available?

Our range includes grid-tied, hybrid and off-grid inverters. A Grid-tied Inverter is designed to connect to supplement your home or business' mains power. When there is solar energy to use, the system will deliver it and when there is insufficient energy to deliver, the system will switch back to grid power.

Are hybrid solar inverters right for You?

When a standard string inverter isn't the right fit for your solar setup—especially if you want to store excess energy in a battery—a hybrid inverter is the obvious solution. These smart inverters seamlessly manage both solar power and battery storage, ensuring you make the most of your energy.
