# How many watts do outdoor solar lights require

## Overview

---

What is the wattage of the outdoor solar light?

The wattage of the outdoor solar light is the energy used to ensure the light illuminates. Your outdoor solar light uses energy from the sun that is collected by solar photovoltaic cells and stored in the battery which you later use for your lighting need.

What wattage should outdoor lighting be?

The recommended wattages for outdoor lighting depend on the purpose of the lighting with the maximum recommended wattage at 80. Low- and mid-range wattage lights are also beneficial for different uses.

How much light do you need for outdoor solar lights?

There are recommended levels of light levels for outdoor solar lights. The amounts recommended are prescribed as footcandles that measure the light falling on a surface. The 3:1 ratio is recommended which is the ratio between brightest and darkest ratio. This is included in your outdoor solar light to help with the conservation of battery life.

Why do outdoor solar lights need to be less than wattage?

This is because you get wattage by getting the product of voltage and current. Therefore, if you have more voltage it means your outdoor solar light will be brighter. So, in any case, the voltage of any outdoor solar light has to be less than its wattage. The wattage of the outdoor solar light is the energy used to ensure the light illuminates.

What wattage light should I use for my lawn?

If you're looking to flood your lawn with light, select lighting to accommodate bulbs with wattages of 80 or higher. Bulbs that are 100 watts and higher are appropriate for pedestrian areas, institutions, parking lots or roadways. Roadway lighting may have a wattage of up to 400 watts.

Are low wattage solar lights a good choice?

In addition, while your solar lighting options are extremely limited at higher wattages, you can much more easily find a solar lamp at a low wattage. Low wattage lights might not kick out lots of light, but they're ideal for highlighting things in your landscaping or creating gentle illumination on pathways.
