How to install the crossbeam of the battery cabinet

Overview

How do I install a battery cabinet?

Create an installation plan for the battery cabinet (Chapter 2). Prepare your site for the battery cabinet (Chapter 2). Inspect and unpack the battery cabinet (Chapter 2). Unload and install the battery cabinet, and wire the system (Chapter 3). Complete the Installation Checklist (Chapter 3).

How do you secure a battery cabinet?

Secure the battery cabinet position by lowering the leveling feet until cabinet is not resting on the casters. Ensure the cabinet is level and matches the height of the installed UPS cabinet. NOTE Two cabinet joining brackets are provided in the field kit for securing each cabinet at the top and bottom.

How do you attach a battery cabinet to a field kit?

A flat bracket joins the top of the cabinets and a larger flat bracket joins the cabinets at the bottom. The small flat bracket is attached to the cabinet tops first. Remove the left-hand and right-hand screws from the adjacent top door hinges of the battery cabinets. Locate the small flat bracket from the field kit.

How do I install a battery cabinet breaker?

Locate the battery cabinet-to-battery cabinet breaker sensing cable in the first battery cabinet. Route this connector into the cabinet to the immediate left and mate with the matching connector in that cabinet (see Drawing 164201536-8 on page A-17). If installing multiple battery cabinets, proceed to Step 3; otherwise, proceed to Step 5.

What are the battery cabinet external wiring requirements?

The battery cabinet external wiring requirements are shown in Tables D and E. NOTE 1: All specified wire sizes are 90 C rated copper minimum. NOTE 2: Replace with same type and number of original battery. Mixing battery letter designation and or sizes will damage equipment and void warranty.

How do I connect a ups to a battery cabinet?

Locate the UPS-to-battery cabinet breaker sensing cable inside the first battery cabinet. Mate the connector on this cable with the matching connector in the cabinet (see Drawing 164201536-8 on page A-17). Route the other end of this cable through conduit (top or bottom entry) to UPS cabinet and connect to terminal strip TB2.
