Huawei Home Energy Storage New Model 2025

Overview

At Intersolar Europe 2025, Huawei Digital Power's Intelligent PV Business Unit today launched a groundbreaking full-scenario grid-forming energy storage platform and a next-gen residential energy management system, setting new benchmarks for safety, scalability, and smart grid integration in the renewable energy sector. What is Huawei digital power?

As a key contributor to this transition, Huawei Digital Power predicts top 10 future trends in industry development based on its long-term practices and indepth insights, ranging from core technologies to scenario-based applications. Huawei Digital Power is committed to accelerating PV to become the main energy source.

What is Huawei's new residential energy management solution 6.0?

Sun Quan unveiled Huawei's new-generation residential energy management solution 6.0, leading in both green power generation and smart energy consumption. The highlight was the LUNA S1-7kWh residential energy storage system, featuring: Industry-leading 15-year warranty (40% longer than competitors). 40%+ higher usable capacity compared to peers.

What makes Huawei a smart grid-forming energy storage solution?

Huawei's intelligent modular grid-forming energy storage solutions deliver three core values—ubiquitous grid-forming capabilities, end-to-end safety from chip to grid, and a unified platform catering to all business models—to expedite the development of a 100% renewable energy-based new power system.".

What are Huawei's strategic goals & value propositions for intelligent PV?

Zhou Tao announced Huawei's strategic goals and value propositions for intelligent PV. He stated: "Huawei Intelligent PV will adhere to its strategic vision: integrating 4T technologies (power electronics, digital twins, energy storage, and AI) to accelerate the construction of energy infrastructure for a 'new power system.'.

Why did Huawei launch '4T' technology?

The launch propelled the renewable energy industry into the grid-forming era. Steven Zhou, President of Smart PV & ESS Product Line, Huawei Digital Power, announced the strategic goal of integrating "4T" technologies (bit, watt, heat, and battery) to build the energy infrastructure for new power systems.

What is the new home energy management solution 6.0?

SUN POWER, President of Residential PV & ESS Business, Huawei Digital Power, released the new Home Energy Management Solution 6.0 that covers green power generation and intelligent energy consumption, leading the way in home energy management. This solution includes a full range of new products, such as the residential ESS LUNA S1-7kWh.
