Iraq Energy Storage Photovoltaic Project

Overview

TotalEnergies has started building a 1 GW solar project in southern Iraq. The solar farm, located in the Basra region, will be built in four units and is scheduled for full commissioning by 2028. Why is Iraq launching a solar energy project?

“The solar energy project contributes to increasing the production of electrical energy, to supply the system with clean renewable energy,” the government added. “It is also one of the first pilot projects in Iraq, which is implemented for the first time.” No more technical or financial details on the new scheme were released.

How has GIZ supported the development of PV training centers in Baghdad?

Technical know-how: We supported the establishment of three PV training centers in Baghdad, Basrah and Sulaymaniyah with equipment and capacity development for trainers who now train future experts in PV installation and maintenance. GIZ has also offered several courses to train qualified professionals throughout the country.

Does GIZ support a holistic approach to photovoltaic (PV) development?

Our approach GIZ has supported a holistic approach to photovoltaic (PV), especially with regard to private sector development: Data analyses: In 2021, GIZ, together with governmental partners, identified the PV sector as a key area for job creation.

Where is the Basrah electricity project located?

Located in Artawi, near the southern port of Basra, Iraq, this special project was initiated by the Iraqi government and TotalEnergies with a total investment of \$27 billion to supply clean electricity to the Basrah regional grid.
