Land price for Panama Colon energy storage project

Overview

Where is the first LNG import facility in Panama?

It is set to be the first LNG import facility in Panama and will be located at the Caribbean entrance of the Panama Canal at Colon, approximately 60km north of Panama City. The LNG terminal will have a capacity of 1.5 million tonnes (Mt) a year and forms part of an integrated facility featuring a 380MW natural gas-fired thermal power plant.

Where is the colon multi-thermal power plant project located?

(Photo:POSCO E&C) POSCO Engineering and Construction Co. (POSCO E&C) kicked off the construction of the Colon Multi-Thermal Power Plant Project in the Telfers Industrial Complex in Colon Province, Panama, in a ceremony on April 27 at the complex.

How will POSCO E&C's Colon power plant work?

POSCO E&C will also construct a gas terminal with a storage capacity of 180,000³. Power produced from the Colon combined cycle power plant can be supplied to around 15 million households simultaneously, which will ensure a stable supply to the industrial complex near the Panama Canal and Colon area.

What is the largest power plant in Panama?

The power generation capacity of Colon CCPP—380MW—is the largest in Panama. The plant is located in Colon, which lies near the Atlantic entrance to the Panama Canal and is about 60km north of Panama City, the capital of the country. POSCO E&C will also construct a gas terminal with a storage capacity of 180,000³.

How will POSCO E&C impact Latin America?

Power produced from the Colon combined cycle power plant can be supplied to around 15 million households simultaneously, which will ensure a stable

supply to the industrial complex near the Panama Canal and Colon area. Despite weak global economic conditions, POSCO E&C achieves total value of \$5.6 billion in Latin America within 10 years.

Why did the Panamanian government cancel the GTPP power project?

In April 2024, the Panamanian government denied a request from Sinolam Smarter Energy to extend its permit for the GTPP power project through December 2025, and officially cancelled the license previously granted, effectively shelving the project.
