Lesotho Wind and Solar Energy Storage Power Station

Overview

What is the energy sector like in Lesotho?

The energy sector in Lesotho is characterised by an enormous potential of renewable energy resources. Lesotho has the potential to produce up to 6,000 MW from wind and solar, 4,000 MW from pump storage, 400 MW from conventional hydropower, and more than 1.

Can Lesotho produce electricity?

Lesotho has the potential to produce up to 6,000 MW from wind and solar, 4,000 MW from pump storage, 400 MW from conventional hydropower, and more than 1,000 MW from hydropower. However, the current demand for electricity continues to exceed.

How much does Lesotho government contribute to solar power project?

Lesotho Government Contribution to this project is estimated at M220 million which will cover the costs of land compensations valued around M57 million, Tax obligations as well as operating costs of Lesotho Electricity Generation Company (LEGCO). The government is implementing 70MW solar electricity generation project at Ramarothole in Mafeteng.

Who is constructing a solar power plant in Lesotho?

The government has also engaged China Sinoma International Engineering and TBEA Xinjiang New Energy to construct solar power plant that will produce 70 MW. Lesotho Electricity and Water Authority (LEWA) Lesotho Electricity Company (LEC) Lesotho Highlands Development Authority (LHDA).

Can Lesotho produce 450 MW of hydropower?

According to Lesotho's Department of Energy, Lesotho could potentially produce 450 MW in hydropower and several hundred more with wind power. However, only 17 percent of this potential is being exploited, 96 percent of it at the 'Muela hydro-power plant and the rest from mini hydro-power plants at

Mants'onyane, Mokhotlong, Tsoelike, and Semonkong.

Can Lesotho export wind power?

Breeze Power, a company owned jointly by GOKL and Harrison & White Investments, is investigating twelve sites for wind power generation. Energy demand is growing in South Africa and the rest of the region, and Lesotho has the potential to export renewable power.

Lesotho Wind and Solar Energy Storage Power Station

Lesotho Energy Storage Hydraulic Station Production

In Lesotho there are six power stations: Two hydro-power stations ('Muela and Mantsonyane), a hybrid diesel-hydro power station in Semonkong, solar mini-grid at Moshoeshoe I international ...

An optimization approach for the economic dispatch

...

Apr 1, 2023 · With the abundant renewable energy sources in Lesotho, independent power producers could be incentivized to erect solar PV plants and wind farms to increase local ...

Lesotho Solar Power Station: A Major Step Toward Energy ...

Aug 11, 2025 · Lesotho is building its first large-scale solar power station in the Maseru district. The project will be completed in two phases--30 MW and then 40 MW--with the plant set to ...

70MW Solar Power Project

Nov 23, 2022 · Through Phase I of the project a 30MW solar generation facility will be installed, 132 kV electricity sub-station will be erected and 55km transmission line will be developed ...

Lesotho solar power Station to Deliver 70 MW of Extraordinary Energy

Jul 21, 2025 · Lesotho's solar power station is set to generate an astounding 70 MW of energy, marking a significant shift from the country's current reliance on imports. This development ...

Lesotho solar power Station to Deliver 70 MW of Extraordinary Energy

Jul 21, 2025 · The solar power station is part of Lesotho's broader strategy to achieve energy independence and sustainability. By investing in renewable energy, the country is paving the ...
