## Overview

---

What is battery management system?

Battery management system used in the field of industrial and commercial energy storage.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Is limatech ready to produce a lithium battery in 2024?

Limitech obtains ETSOA and ADOA certification from EASA, becoming Europe's leading producer of lithium batteries for aerospace. Ready to produce and deliver from 2024. Discover our certified innovation. Limitech inaugurates its battery production site July 11, 2024 - The Limitech startup has reached a new milestone in its.

Why should you choose limitech?

Fully committed to this goal, Limitech has set itself an essential strategic mission for future generations: decarbonizing aviation thanks to its smart lithium batteries. and the challenges of the energy transition. Our LFP (Lithium Iron Phosphate) batteries are designed to equip certified aviation.

What is battery energy storage system (BESS)?

In the ever-advancing world of renewable energy, the role of Battery Energy Storage System (BESS) has become paramount. As we transition towards a more sustainable and environmentally conscious future, the ability to efficiently store and manage energy from renewable sources has never been more critical.

## What is China's Energy Storage Center?

Through strategic partnerships with the Chinese Academy of Sciences, Zhejiang University, and the University of Electronic Science and Technology of Chengdu, the center advances the development and application of cutting-edge energy storage technologies. The company operates advanced energy storage factories with a total capacity of 4GWh.
