Lithium battery market demand

Overview

Global demand for Li-ion batteries is expected to soar over the next decade, with the number of GWh required increasing from about 700 GWh in 2022 to around 4.7 TWh by 2030 (Exhibit 1). Batteries for mobility applications, such as electric vehicles (EVs), will account for the vast bulk of.

The global battery value chain, like others within industrial manufacturing, faces significant environmental, social, and governance (ESG).

Some recent advances in battery technologies include increased cell energy density, new active material chemistries such as solid-state batteries, and cell and packaging.

Battery manufacturers may find new opportunities in recycling as the market matures. Companies could create a closed-loop, domestic supply chain that involves the.

The 2030 outlook for the battery value chain depends on three interdependent elements (Exhibit 12): 1. Supply-chain resilience. A resilient battery value chain is one that is regionalized and diversified. We envision that each region will cover over 90 percent of.

The global lithium-ion battery market was estimated at USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034. What is the global lithium-ion battery market size?

The global lithium-ion battery market was estimated at USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034. Lithium-ion batteries are ideal rechargeable battery used in EVs, renewable energy storage. Increasing transition towards green energy is driving market growth.

Why is the lithium-ion battery market growing?

As a result, rising demand for LFP batteries drives the lithium-ion battery market, fueling innovation, affordability, and sustainability in the global transition to electrified transportation. Safety concerns and recycling and disposal expenses are significant barriers to the growth of the lithium-ion battery market.

How big is the Asia Pacific lithium-ion battery market?

The Asia Pacific lithium-ion battery is likely to reach 141.5 billion by 2034. The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the shift to green energy and rising use in EVs and renewable energy storage.

How much is the lithium-ion battery market worth in 2025?

The global Lithium-ion Battery Market in terms of revenue is estimated to be worth \$194.66 billion in 2025 and is poised to reach \$426.37 billion by 2033, growing at a CAGR of 10.3% during the forecast period.

Which region has the largest lithium-ion battery market?

During the forecast period, Asia Pacific is expected to hold the largest share of the global lithium-ion battery market. Growth is driven by the rising use of these batteries in electric vehicles, energy storage systems, consumer electronics, and medical and industrial applications.

How big will lithium-ion batteries be in 2022?

But a 2022 analysis by the McKinsey Battery Insights team projects that the entire lithium-ion (Li-ion) battery chain, from mining through recycling, could grow by over 30 percent annually from 2022 to 2030, when it would reach a value of more than \$400 billion and a market size of 4.7 TWh. 1

Lithium battery market demand

The future of lithium-ion batteries: Exploring expert

...

Nov 1, 2022 · However, the battery industry is a complex system, which makes it difficult to estimate when and how this horizon will be reached. This is due, first, to the wide variety of ...

Lithium-ion batteries

Jan 22, 2025 · It is projected that between 2022 and 2030 the global demand for lithium-ion batteries will increase almost seven-fold, reaching 4.7 terawatt-hours in 2030. Much of this ...

Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallel connection

Annual lithium-ion demand surpasses 1 TWh for ...

Dec 20, 2024 · In recent years, the demand for lithium-ion batteries in stationary storage applications has doubled from 7% in 2020 to 15% in 2024, making it ...

Trends in electric vehicle batteries - Global EV ...

Aug 14, 2025 · More batteries means extracting and refining greater quantities of critical raw materials, particularly lithium, cobalt and nickel Rising EV battery ...

Lithium-Ion Battery Market Size, Growth Outlook 2025-2034

The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the shift to green energy and rising use in EVs ...

What's Driving Lithium Demand in 2025 and Beyond?

Aug 18, 2025 · Battery capacity requirements are increasing in parallel. The IEA's latest demand outlook shows that electric vehicles now account for nearly 90% of lithium demand, up from ...

Lithium-ion Battery Market

Size & Forecast to 2030

As global demand surges for cleaner energy storage and electrified mobility solutions, the Lithium-ion Battery Market is booming like never before. Innovations in battery chemistry, ...

Lithium-ion Battery Market Report 2025: Growing Demand for

Dublin, April 01, 2025 (GLOBE NEWSWIRE) -- The "Lithium-ion Battery Market" report has been added to ResearchAndMarkets 's offering. This report analyzes different components in ...

Supply and demand of lithium in China based on dynamic ...

Oct 1, 2024 · Given the expanding EV market, the demand for lithium in China increases rapidly. In addition to a stable supply of lithium imports, secondary lithium recovered from EoL ...

Global Battery Market

Trends 2025: Growth Drivers, Supply ...

Apr 22, 2025 · 3. Battery Supply Chain Trends: Resilience and Sustainability The battery supply chain faces challenges ranging from raw material shortages to ethical sourcing concerns. ...

Lithium-ion Battery Market Size to Worth USD 499.31

...

May 28, 2025 · The global lithium-ion battery market size is estimated at USD 115.89 billion in 2025 and is anticipated to reach around USD 499.31 billion by 2034, expanding at a CAGR of ...

Lithium Market Insight 2025: Price Recovery, EV

...

Mar 25, 2025 · François-Michel Colomar: "The projected price increase of lithium is largely driven by the rising demand for EV batteries and energy storage ...
