# **Lithium battery power station in Turkey**

## Overview

---

China's Ganfeng Lithium -- the largest global lithium metal supplier -- plans to set up a joint venture in Turkey and build a local battery plant. Where is Turkey's first lithium-ion battery production facility located?

The construction contract for Turkey's first lithium-ion battery production facility was signed in Kayseri in August 2020 and it was announced that the necessary preparations had begun. Positive impact of domestic lithium production on Turkish economy.

How many battery production facilities are there in Turkey?

New facilities capable of producing up to 5 gigawatt-hours of cells and batteries will be established in Ankara, Istanbul, Izmir, and Kocaeli, Usta said, adding that agreements signed this year alone exceeded \$1 billion in investments. With these new additions, the total number of battery production facilities in Türkiye will reach 11.

What is Turkey's first lithium phosphate battery factory?

According to rules that came into force in October, such systems must have maximum operating power of at least 2 MW. Also this week, Kontrolmatik broke ground in Ankara for Turkey's first lithium iron phosphate battery factory. Minister of Industry and Technology Mustafa Varank said the project is worth USD 180 million.

What's happening in Türkiye's lithium ion battery sector?

Bank of lithium ion batteries at the University of California San Diego Center for Energy Research in La Jolla, California, U.S. (AFP Photo) Investments in Türkiye's battery sector surpassed \$1 billion this year, driven by incentives and regulations aimed at achieving an 80-gigawatt-hour storage target by 2030.

How does Turkey meet its lithium needs?

Turkey currently meets all its lithium needs through imports, and the plants opened in Eskisehir beginning to operate at full capacity would mean that half of Turkey's lithium needs will be met domestically.

How many battery plants are there in Türkiye?

With these new additions, the total number of battery production facilities in Türkiye will reach 11. However, Usta noted that despite draft regulations, the legal framework for battery and storage power plants is still evolving. The first approvals are expected next year.
