Lobamba downgrades PV module prices

Overview

How much does a top-five module cost in 2025?

A top-five module maker told OPIS that 2025 loading prices have not meaningfully increased, even with higher upstream costs. Current offers from leading manufacturers of utility-scale projects are in the low-\$0.080/W range. The FOB China TOPCon module price for the first-half 2025 loading was at \$0.085/W, with values between \$0.082-0.087/W.

How much does a Topcon module cost in Brazil?

Module sellers describe the Brazilian market as particularly price-sensitive, with prices generally lower compared to other regions. For instance, TOPCon module prices destined for Brazil have dipped into the range of \$0.08 to \$0.09 per watt FOB China, with Tier 2-3 module sellers offering prices at the lower end of the spectrum.

When will BC module prices change in China?

BC module prices in China will be added and split into ground-mounted and C&I segments from June 2025. Weekly spot price report for 182mm modules will be based on the 182*182-210mm format from June 2024 onwards due to the slim price gap among varying formats .

Why are Topcon modules slashing prices?

These price reductions reflect a broader trend of subdued market activity driven by weak demand. In response, module manufacturers are slashing prices to secure new orders and maintain cash flow. The current tradable indications for TOPCon modules are being reported at \$0.10 per watt Free-on-Board (FOB) China.
