Lome Super Hybrid Capacitor Manufacturer

Overview

Who makes supercapacitor in China?

Kamcap is one of the leading supercapacitor manufacturers in China. We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercap capacitor, module supercaps, high temperature supercap and hybrid capacitor.

What are hybrid supercapacitor cells?

With their characteristic safety and reliability, HSCs have garnered significant adoption. Our Hybrid SuperCapacitor cells combine the power density, high cycle capabilities and long life of electric double-layer capacitors (EDLC) construction with higher energy density approaching that of lithium-ion battery (LIB) technology.

What is a hybrid LIC supercapacitor?

The VMF and VPF Hybrid LIC Supercapacitors offer increased voltage and energy density, ideal for applications with long stand by and run times. Unlike batteries, hybrid supercapacitors do not degrade with each charge/discharge cycle and are inherently safer than batteries, with no risk of thermal runaway.

What makes LICAP a top 10 supercapacitor company?

One of top 10 supercapacitor companies LICAP has always been committed to the development and production of energy storage solutions with market-leading levels. All along, through continuous research and development and improvement of its own technology, it has met the growing demand for energy storage in the market and various applications.

What is a hybrid supercapacitor (HSC)?

This without the safety concerns of a thermal runaway event of LIBs. Musashi's Hybrid SuperCapacitor (HSCs) products deliver unparalleled high-power density energy storage to meet the diverse needs of an electrified

world.
