

SolarTech Power Solutions

Maintenance contract for photovoltaic base stations in Sao Tome and Principe

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect
Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem

- LFP battery, safest and long cycle life
- Stackable design, effortlessly installation
- Capable of High-Powered
- Emergency- Backup and Off-Grid Function

Overview

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.

How long does it take to build a photovoltaic plant in so Tomé?

The first phase of the project will see the installation of photovoltaic plants at the country's national airport in São Tomé, as well as on the island of Príncipe. Cleanwatts vice chairman and co-founder Basilio Simoes said the two airport projects would take less than three months (for the smaller plant) and up to two years to build.

Who will build a solar PV plant in Santo Amaro?

The Ministry of Infrastructure and Natural Resources (MIRN) has launched a tender for an engineering, procurement and construction (EPC) contractor to build and maintain a 1.5MW solar PV plant in Santo Amaro. The tendering process and work is financed by the African Development Bank (AfDB). Bids are to be submitted by 6 June. Want to read more?
