Malawi outdoor power supply purchase

Overview

What is the main source of power in Malawi?

Power and Energy Sources: The main source of power in Malawi is electricity grid provided by the Electricity Supply Commission of Malawi. However, the country has been facing constant and prolonged power interruptions. This has made it difficult to progress in implementation of reliable digital health systems.

Who makes the rules for the Malawi Electricity Supply Industry?

The Malawi Energy Regulatory Authority makes a set of rules called the Grid Code for operation, dispatch and reporting of the Malawi Electricity Supply Industry.

Can a power plant be built on a river in Malawi?

Realizing that it is risky to have all power plants on one river and from one source, Malawi has plans to diversify its energy source to other sources like solar, wind, geothermal etc. Currently, feasibility studies for wind, solar, cogeneration and other potential hydro power sites on other rivers are in progress.

What is solarworks' partnership with Telekom Networks Malawi (TNM)?

SolarWorks' partnership with Telekom Networks Malawi (TNM) aims to provide basic energy in most villages across Malawi. This initiative is particularly important given the current global emphasis on staying at home and using sustainable energy.
