

## SolarTech Power Solutions

# Marseille energy storage power station installation

## Overview

---

How does the port of Marseille-Fos use electricity?

The Port of Marseille-Fos buys electricity with renewable certificates of origin. In order to further improve the overall energy mix for OPS connections, it is planned to equip the port buildings' roofs with photovoltaics in order to reach the level of power required for the simultaneous connection of all the vessels.

What is a geothermal power station in France?

Built at the Marseille-Fos Port, the marine geothermal power station Thassalia is the first in France, and even in Europe, to use the sea's thermal energy to supply linked buildings with power for heating and cooling — over an area which will eventually comprise 500,000m<sup>2</sup> — while reducing greenhouse gas emissions by 70%.

Does the port of Marseille-Fos provide onshore power supply (Ops)?

The Port of Marseille-Fos provides Onshore Power Supply (OPS) for ships at berth and constantly looks at expanding its OPS connections network.

What is the port of Marseille-Fos strategic project 2019-2023?

The Port of Marseille-Fos is committed to continue the effort in the framework of its Strategic Project 2019-2023, that aims to reduce the environmental nuisances and impacts in the whole Marseille Basin. As part of the project, new OPS connection points will be deployed to serve more terminals and shipping companies.

Who inaugurated the new marine geothermal power station Thassalia?

Marseille, 18 October 2016 – Gérard Mestrallet, chairman of ENGIE's board of directors, inaugurated the new marine geothermal power station Thassalia last evening.

Why do we want a Marseille-Fos cluster?

"We want this cluster to put Marseille-Fos in a strong worldwide competitive position!"
