# Nairobi New Energy Storage

## Overview

---

Kenya Power last year announced plans to set up a grid-level 100 MW lithium-ion BESS by 2024 to store power at low demand to be used during peak power demand. Who is implementing a battery energy storage system in Kenya?

Nairobi, Friday, November 24, 2023: Kenya Electricity Generating Company PLC (KenGen), has been earmarked as the Implementing Agency for the Battery Energy Storage System (BESS) as part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank.

Does Kenya need battery energy storage?

A battery energy storage. The question of power storage has become critical as Kenya embraces e-mobility which requires reliable power supplies. The Energy and Petroleum ministry targets to mainstream power storage in its electricity master plan as the country's renewable energy generation expands.

Can a 50MW wind power plant be built in Kenya?

Separately on September 9, 2019, the US Trade and Development Agency awarded a grant to Kenya's Craftskills Energy Limited for a feasibility study by an American firm, Delphos International for the development of a 50MW wind power plant with integrated battery storage capacity in Kenya.

How many wind turbines & solar panels will be installed in Meru?

On completion, the facility is expected to feature up to 20 wind turbines and more than 40,000 solar panels. The PPP project is a joint owned by the Meru County government, global renewable energy developers, Windlab, and c, a subsidiary of Toyota Tsusho Corporation.
