

SolarTech Power Solutions

New Zealand Solar Battery Storage Company

Overview

What is the best solar battery storage system in NZ?

AC Coupled Battery System: The AC-coupled battery storage system is the most common solution to store solar power. This battery system works seamlessly with any inverter and has a straightforward installation. **Why Choose Our Solar Batteries in NZ?**

.

How do solar batteries work in NZ?

Solar batteries provide a smart way to store solar energy in NZ. The battery system lets you store excess power generated by your solar panels for later use at night or during cloudy days. Our team at Discover Solar is passionate about helping the local community find the ideal solar solution.

How many types of solar batteries are there in NZ?

We have two types of solar batteries in NZ, but we will help you choose the right one for your application. **DC Coupled Battery System:** You can only connect solar panels to this battery storage type, meaning it can only store energy generated by your solar panels.

What is solar battery storage?

With a solar battery storage system, either hybrid or off-grid, you can save the energy you generate to use later when the sun isn't shining. We install a range of high quality solar batteries from brands such as Dyness, Pylontech, Sigen and Sungrow. Learn more below or get in touch for a free consultation and quote. **Why use Solar Battery Storage?**

.

Why should you choose a solar battery in NZ?

Solar batteries enable you to become energy-dependent and reduce your electricity bills. Discover Solar has partnered with a reputable solar battery manufacturer, Sungrow, which has a robust track record of 25 years in the industry. We have two types of solar batteries in NZ, but we will help you choose the right one for your application.

Why should I add battery storage to my solar system?

Watch this video for a simple explanation. Save even more money by adding battery storage to your solar system. Capture energy from the sun during the day for use at night time or in an outage.
