

# **Nigeria imports 663 mobile outdoor power supply**

## Overview

---

Does Nigeria have a reliable electricity supply?

Nigeria currently supplies electricity to the Republic of Benin, Togo, and Niger. However, the Nigerian power sector will require significant investment to achieve reliable power supply. Industry operators estimate that the country will require as much as \$100 billion in investment over the next 20 years to maintain current service.

Does USTDA support Nigeria?

Since 1992, USTDA has provided over \$375 million in support for projects in Nigeria. The Nigerian National Petroleum Corporation Limited (NNPC) received a \$1.16 million funding commitment from USTDA for the Abuja 1,350-megawatt power plant. This power plant is set to benefit from the Ajaokuta-Kaduna-Kano (AKK) gas pipeline being built.

Who manages power purchase agreements in Nigeria?

In Nigeria, the Nigeria Electricity Liability Management Company is mandated to take over management and settlement of power purchase agreement obligations and other legacy debts. The Bureau of Public Enterprise supports privatization of Nigerian legacy assets, and the Gas Aggregation Company of Nigeria is responsible for gas allocation for domestic use.

Does GON have a power project in Nigeria?

GON has signed a \$2 billion power production agreement with Siemens in Nigeria. This project is expected to boost Nigeria's electricity production to 25,000 megawatts by 2023.

What is the electrical equipment segment in Nigeria?

The electrical equipment segment in Nigeria is large and has a high potential for growth in the future. Electrical equipment such as electrical wires, power generating machines, inverters, transformers, conductors, meters, switch

gears, capacitors, distribution boards, and voltage regulators are all used on a large scale in Nigeria.

Will Nigeria sell stranded electricity to West African countries?

Nigeria plans to sell approximately 2,000 MW of unutilized electricity to four West African countries – Niger, Togo, Benin, and Burkina Faso – through the proposed \$570 million, 875 km, 330 kv Northcore Power Transmission Line project.
