Palikir Solar Tiles

Overview

What is the difference between solar tiles and photovoltaic panels?

Solar tiles operate identically to the photovoltaic panels that are already widely used in construction. The primary difference between them lies in their assembly: whereas photovoltaic panels are attached to an existing roof, solar tiles are part of the roof's construction from the start, taking the place of regular tiling.

Are solar roof tiles a good way to capture solar energy?

Solar roof tiles offer a new way to capture solar energy on roofs. We explore some of its characteristics, advantages, and disadvantages.

How do solar tiles work?

Solar tiles operate identically to the photovoltaic panels that are already widely used in construction.
