Panama Energy Agency Energy Storage Project

**High Voltage
Solar Battery**

Overview

What is Panama's energy plan?

Panama's National Energy Plan 2015-2050 outlines long-term strategy for the country's energy sector development, including renewables. The Plan established that 15% of Panama's generation capacity will come from renewables by 2030 and 50% by 2050.

When will a 500MW energy storage application be released?

Publication for the application will be released in February of this year. Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage.

How much MtCO₂ will be reduced in Panama?

The scheme expects to ensure the reduction of 17.5 MtCO₂, representing 29% of Panama's total Nationally Determined Contribution within the Paris Agreement framework. Do you want to become an expert on renewable energies auctions?
