

## SolarTech Power Solutions

# Photovoltaic module investment projects

## Overview

---

Is solar PV a good investment in 2023?

Despite 2023 inflation, declining module and inverter costs reduced project expenses, rare in the power sector. Solar PV with BESS offers lucrative revenue prospects. Dublin, June 19, 2025 (GLOBE NEWSWIRE) -- The "Solar PV Industry, Global, 2023-2035" report has been added to ResearchAndMarkets.com's offering.

Are distributed solar PV projects profitable?

Hence, according to the current solar power generation volume (1,976 kWh kW p-1), electricity price level and PV module investment, distributed solar PV projects invested in this city can reach 100% profitability. In addition, around 10% of the cities have an IRR higher than 20%, which indicates very high profitability (Fig. 3c).

What is a floating solar PV project?

The floating solar PV project also includes a 66kV offshore cable paired with an onshore cable, marking a first for the Chinese market. Additionally, the project utilises an integrated fishing and solar PV development model, combining fish farming with PV power generation to enhance the comprehensive utilisation of the marine area.

Are solar PV projects an asset?

Analyst Perspective: The electricity produced from Solar PV projects is an asset. When combined with other DER such as BESS and EV Chargers it can generate additional revenues for the asset owners - or it can mitigate potential demand charges or high electricity bills.

Where is the floating solar PV project located?

The floating solar PV project is located in the Shandong Province of China. Image: CHN Energy. State-owned China Energy Investment Corporation (CHN

Energy) has completed a 1GW floating solar PV facility in the Shandong Province of China.

What are the costs of solar PV projects?

The costs of solar PV projects include power generation, predevelopment, construction, and operation and maintenance costs, as well as the discount rate of fixed-term considerations, the depreciation of fixed assets, and/or the residual value of assets (equation (1) 63):
