Port Moresby Base Station Communications Energy

Overview

What is the Port Moresby power station?

The Port Moresby Power Station provides highly efficient and flexible base-load power supply to stabilise the Port Moresby System. The power plant will start operating in January 2019.

How will the niupower Port Moresby power station improve reliability?

Once online, the NiuPower Port Moresby Power Station will greatly improve the reliability of the Port Moresby power grid and, we have been advised by our customer PNG Power, will reduce the cost of power supply into the grid by up to PGK100 million (EUR27 million) per annum.

Was Port Moresby a military base?

Naval Base Port Moresby was a United States Navy base built during World War II at the city of Port Moresby on Papua New Guinea. The US Navy built a communication center and advance base headquarters for the US Seventh Fleet to support the Pacific War in 1943. The base was part of the New Guinea campaign.

Which Papua New Guinea power plant has 58MW power plant?

Image caption: NiuPower's 58MW power plant is the first ever utility-scale gas-engine powered plant in Papua New Guinea. Wärtsilä Services provides high-quality lifecycle services that enhance customers' business. Its broad range of services supports both shipping and power generation companies, whenever and wherever needed.
